

## Blyth Town Council are seeking your views on the installation of a new Play Area within the Hodgson Road Estate.

The Play area that is currently located at Millfield Gardens has limited equipment for limited age ranges. The Council have agreed to provide new play facilities in this area. There is scope for the play area to be increased in size in its current location, to a size similar to other play areas within Blyth or to be moved to another area within the estate.

Proposal 1: The play area to be reburbished as is. With no other changes.

Proposal 2: Increase the size of the Play Area in its current location to a similar size of other parks in the Town.

Proposal 3: Relocate the Play Area to the identified location on the grassed area to the rear of Chestnut Ave.
